## **2018 Application**

# **Amelia Earhart Fellowship**

## ***A Zonta International Program***

### ***Funded through the Zonta International Foundation***

**Revision date: July 2017**

#### **The Fellowship**

The Zonta International Amelia Earhart Fellowships were established in 1938 in honor of Amelia Earhart, famed pilot and Zonta club member. The Amelia Earhart Fellowships are awarded annually to women pursuing a Ph.D./doctoral degree in aerospace-related sciences or aerospace-related engineering. The Fellowship of **US\$10,000** may be used at any university or college offering accredited post-graduate courses and degrees.

#### **Who is Eligible?**

Women of any nationality pursuing a Ph.D./doctoral degree who demonstrate a superior academic record in the field of aerospace-related sciences or aerospace-related engineering are eligible. Students must be registered in a full-time Ph.D./doctoral program and completed at least one year of that program or have received a master's degree in an aerospace-related field at the time the application is submitted. Applicants must not graduate from their Ph.D. or doctoral program before April 2019. Please note that post-doctoral research programs are not eligible for the Fellowship. Members and employees of Zonta International or the Zonta International Foundation are also not eligible to apply for the Fellowship. Note that previous Amelia Earhart Fellows are not eligible to apply to renew the Fellowship for a second year.

#### **What are the Requirements?**

Applicants must meet the following minimum requirements:

- ❑ Be registered in a full-time Ph.D./doctoral program in a qualifying area of science or engineering closely related to advanced studies in aerospace-related science or aerospace-related engineering and completed at least one year of that program or have received a master's degree in an aerospace-related field at the time the application is submitted. A verification of current enrollment must be submitted with the application. Acceptance letters are not verification of enrollment and will not be accepted.
- ❑ Demonstrate a superior academic record at a recognized university or college with accredited courses in aerospace-related studies as verified by official transcripts and recommendations. In programs where graduate transcripts are not provided as a matter of institutional policy, please provide a statement of that policy from the registrar or other school official. Please note that links from universities containing electronic transcripts will not be accepted.
- ❑ Provide evidence of a well-defined research program in aerospace-related science or aerospace-related engineering as described in the application essay (in general scientific terms), the academic documents (references, transcripts, verification of enrollment) and the list of publications (Note: please do not attach publications; citing the references is sufficient).
- ❑ Clearly demonstrate the relationship of the research to aerospace and furnish verification of research program through at least one of the reference letters required with the application. The thesis supervisor or advisor and a university professor must each be one of the referees.
- ❑ Applicant must be registered in a full-time Ph.D./doctoral program by 15 November 2018 and must not graduate before April 2019.
